## CLARIFICATION EXHIBIT - STORAGE BUILDING APPLICATION SUPPLEMENT:

***The applicant agrees to adhere to the ARC Design Review standards below and the storage building exhibit to this application. Please read through thoroughly and fill in the appropriate information below.***

**Section IIIA** - Owners shall secure reviewer approval prior to construction of any accessory building, including garden or tool sheds or permanently installed playhouses. A detached garage is not considered an accessory building, and its construction shall require reviewer approval on a case-by-case basis. Accessory buildings shall meet the following criteria:

1. An accessory building must be of the same color, material, and architectural style as the main residence or of color, material, and style that is generally recognized as complementary to that of the main residence. An accessory building's roofing materials shall match those of the main residence. If the accessory structure is enclosed by a privacy fence that conforms to the Architectural guidelines, the ARC may grant a variance to allow different materials than the main structure. However, in no instance shall more than 2' of the accessory building be visible from the outside of the privacy fence. ARC will require the materials that stick above the privacy fence for the 2' allowable section to be built of similar colors and the same roofing material and roofing colors as the primary residence. Note: If the lot has topography that will allow visibility into the back yard from any street, then the accessory structure has to conform to the standard.
2. Any utilities servicing accessory buildings shall be installed underground.
3. Accessory buildings shall be located in the rear yard but may not be located within an easements area, shall not unreasonably obstruct any adjacent neighbor's views.
4. Roof lines, gables, and roof forms should be varied to avoid a continuous one level elevation along the street. Main roof forms should be pitched at no less than 8/12 and are complementary to the overall structure of the home. Accent roof pitches, such as porches and stoops, may be approved on a case by case basis at a reduced pitch, but shall not be less than a 4/12 pitch. No pitch shall exceed 14/12. Dormers may exhibit arched, gabled, mansard, or hipped forms. No 3 tab shingles will be allowed on any structure that is visible from any street.

### **Design Review Questions for Storage Building Applications.**

- 1) **The proposed storage building must sit behind an existing 6' wooden privacy fence. Please circle the correct answer.**  
*Note: Under no conditions will the ARC grant a variance on a storage building that brought onto a lot with the intentions of installing a privacy fence afterwards.*  
**If you do not have a fence have you submitted a fence application?**  
a. Yes                      b. No
- 2) **Please give the dimensions of the structure below:**  
a. Height (from the ground to the ridge of structure) \_\_\_\_\_ feet \_\_\_\_\_ inches

a. Sides                      b. Cornice                      c. Roof  
    Brick                      Vinyl/Aluminum                      **Architectural Shingles**  
    Fiber Cement Siding                      Fiber Cement                      **are the only roof material**  
    Wood Siding                      Wood                      **allowed!**
- 4) **What are the colors of the exterior:**  
a. Sides \_\_\_\_\_                      b. Cornice \_\_\_\_\_                      c. Roof \_\_\_\_\_

***Any prefabricated storage building requests must have a picture of the structure attached to the application. Any Site Built building must have all of the documentation required in Section II B 1-3. Number 4 is only required if not listed above.*** On the following page, applicant is to use the graph paper to draw a site plan of their lot. On this graph paper, please first draw your lot, then your home. Then show any fence on the boundary lines. Show the location of where the structure is requested to sit on the lot Be sure to label the front of the home. See the sample on the Association Voice site for Guidance of what the ARC needs to process the request efficiently.
